2.10 Other Information

N/A.

2.11 Points of Customer Contact

The preferred method for contacting the CP CSIRT is via email at csirt@colpal.com. Incidents can also be reported via toll-free number +1-212-310-2000 (United States only).

3. Charter

3.1 Mission Statement

The core mission of the Colgate-Palmolive Company Computer Security Incident Response Team (CP CSIRT) is to protect the integrity, confidentiality, and availability of the Colgate Palmolive's information assets, systems, and networks. The team is dedicated to proactively identifying, preventing, and mitigating cybersecurity threats while promoting a culture of

security awareness and resilience throughout the company. In the event of a security incident, the CP CSIRT commits to delivering a rapid, effective, and coordinated response, minimizing potential harm and ensuring the continuity of business operations. Adhering to industry best practices and standards, the team continuously seeks to enhance its processes, tools, and capabilities to stay ahead of the evolving cybersecurity landscape.

3.2 Constituency

The CP CSIRT serves the employees and business partners of Colgate-Palmolive Company.

3.3 Sponsorship and/or Affiliation

The CP CSIRT is fully sponsored by Colgate-Palmolive Company.

3.4 Authority

The CP CSIRT operates under the authority of Colgate-Palmolive Company and is responsible for coordinating incident response activities across the organization and its subsidiaries.

4. Policies

4.1 Types of Incidents and Level of Support

The CP CSIRT is authorized to address all types of computer security incidents which, or threaten to occur, at CP CSIRTs constituency. The level of support given by CP CSIRT will vary depending on the type of severity of the incident or issue.

4.2 Co-operation, Interaction, and Disclosure of Information

The CP CSIRT cooperates with other teams, organizations, and law enforcement agencies as necessary to effectively respond to incidents. Information disclosure is governed by Colgate Palmolive's data protection and privacy policies.

4.3 Communication and Authentication

The CP CSIRT primarily utilizes conventional email for standard communication. For secure communication, S/MIME encryption is employed; details for the public key can be found on our site homepage at <https://github.com/colpal/csirt>.

5. Services

5.1 Incident Response

The CP CSIRT is committed to supporting all members within its constituency in addressing cybersecurity matters, encompassing both proactive and reactive measures.

6. Incident Reporting Forms

Whenever possible, incidents should be reported by email at csirt@colpal.com, preferably encrypted with our S/MIME public certificate, with the following information:

1. Contact details — name of person, organization name and address, email address, telephone number.
2. Short summary of the incident / emergency / crisis and type of event.
3. Affected system(s).
4. Estimated impact (e.g. loss of communications)
5. Additional information such as details of the observations that led to the discovery of the incident scanning results (if any), an extract from the log showing the problem, screenshots, etc.

7. Disclaimers

While every precaution is taken in the preparation of information, notifications and alerts, CP CSIRT assumes no responsibility for errors or omissions, or for damages resulting from the use of the information contained within.
